

TRA-SER

FOR ICT-LOW VOLTAGE DISTRIBUTORS

CURRENT ICT-LOW VOLTAGE DATA AVAILABLE ANYTIME ON THE INTERNET

Distributors in the Information & Communications Technology (ICT-Low Voltage) industry use our specialized parts pricing to increase sales. Containing thousands of telecommunications and audio/video parts, you can easily find alternatives when you're out of stock on an item so you don't lose the sale.

Close sales faster while increasing the volume. With expanded product descriptions,

even an ICT-Low Voltage distributor's most inexperienced employee can quickly locate the correct pricing needed to supply their customers. Our supply price lists are easily navigable so in-stock or not, staff can make sales while they have a customer on the phone.

Whether you need to be able to quote current prices, prepare submittals, research product information, find product alternatives, or create customized price lists for your best customers, TRA-SER® is the only tool you need. And, it's 100% Internet-based, so it requires no footprint on your PCs, all you need is a web browser to start using TRA-SER®.

Top Benefits

- ❑ **Sell More Non-Stock** – With our built-in cross-references, staff can easily find alternatives to serve customers' needs while increasing sales volume.
- ❑ **Detailed Product Data** – TRA-SER® includes prices, yes but also long descriptions, pictures, and manufacturer catalog pages.
- ❑ **Access over 300,000 items** from hundreds of manufacturers with current pricing you don't have to update

The screenshot shows the TRA-SER website with a search bar at the top. Below the search bar, there are sections for 'Product Showcase' featuring 'ANAMET Electrical, Inc.' and 'MINERALLAC COMPANY'. A 'Local INVENTORY' section is also visible. The 'Featured Manufacturers' section includes logos for Dolphin, Haydon, Lutron, Oldcastle, and WattStopper. A 'Copper Pricing' section displays a line graph showing price fluctuations over time, with a 'Daily Report' for New York on Thursday, February 25, 2016.

Search the database by commodity, manufacturer, or a host of other options
